### Manage Co-Op Claims

Claim #	Pre-Auth. Status	Claim Approval Status	Invoice #	Invoice Amount	Claim Submit Date	Media Type	Action
100016	Pending	Pending		\$0.00	2019-12-18	Billboards	Edit Claim

This will lead you to load a Pre-Authorization of Creative Approval and/or a Claim.

It is recommended that Pre-Approval on creative is always submitted to ensure that creative is compliant with the Co-Op Guidelines.

This step will allow you to upload your media and save a claim. Please submit each claim separately for proper tracking and auditing purposes. If you have multiple media files and/or invoices within one claim, you may load them here by clicking on the "Add Additional Media Files" or "Add Additional Invoice Files" buttons. Once complete, click on the "Save Claim" button. An email will be sent to the user logged in that has clicked this button. If you are submitting a claim and creative all at once, this step allows you to load all elements and Claim in one step.

Whenever a Pre-Approval or Claim is submitted, the user logged in will receive an email notification as well, confirming this has in fact been submitted. You can always check the status of any submissions on the account, though, by entering the "Manage Co-Op Claims" link from the dashboard.

Participation in the 2020 Co-Op Program is based on your distributor and available funds. Although a claim may be approved in the portal as eligible for co-op reimbursements, until funds are earned, reimbursement will not be administered.

## Managing Users:

As mentioned previously, all users with access to our site @ <https://fl.carrierenterprise.com/> will now have access to the "Manage Co-Op Claims" feature. Some customers may be introducing new users to this site, or even have a third party, such an advertising agency, submit on their behalf. If you so choose, here is how you may add a new user to this account and some permissions/limitations you may put into place that can assist with their access. From your Dashboard, click on "Manage Users", as seen below:
