

Cleans the air in your whole home.

Eliminates airborne dust, pet hair, pollen and pollutants.

No mess, no hassle. Convenient, disposable cartridge only needs to be replaced every six months.

High capacity. Twenty-five square feet of media permanently traps significantly more airborne dust and dirt than standard furnace filters.

Assured protection. Engineered seals ensure that dirty air doesn't sneak past the filter and into your air.

Long-lasting. Clean-looking, heavy gauge galvanized steel frame supports ductwork and provides durability.

According to the U.S. Environmental Protection Agency, most people spend 90 percent of their time indoors. Generally, the EPA says, indoor air is four or five times more polluted than outdoor air.

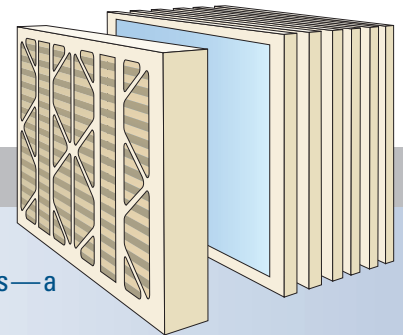

- A typical 3,000-square-foot house generates 80 pounds of dust per year.
- A typical throwaway furnace filter traps only about 15% of indoor air pollutants each year.

Homeowner benefits

- Cleaner Home – less dusting
- Convenient Filter Change – low maintenance
- Saves Energy – keeps heating & cooling system running at peak performance
- Protects expensive HVAC equipment

Compare the effectiveness

- 6 month filter life saves time and money vs. monthly furnace filters—a 6 to 1 comparison.
- 24 times more effective than a typical 1" furnace filter.
- Less dusting, less dirt, less work for you.
- Protects heating and cooling equipment from dust and dirt build-up far more effectively than an ordinary furnace filter.

Upgradeable bonus

Every 2100 Series product from Aprilaire can be upgraded to the industry leading Model 2200/2400 for enhanced allergen reduction. Ask your dealer for more information.

Meet the entire family of Aprilaire Whole-Home Air Cleaners.
