

## Site Visit Request for Carrier/Bryant Equipment

### IMPORTANT:

- Good effort must be made to resolve problem by dealer service technician/service manager visiting the site and gathering needed /required diagnostic information.
- The dealer's technician must telephone the Carrier/Bryant Distributor Service Representative from the jobsite and describe the problem in detail.
- The service technician must perform the steps that the Distributor Service Representative requests during telephone call.
- Only after following these steps should the dealer submit this Site Visit Request form.
