

# Low-Profile Termination for Additional Applications

## 6" Wall Vent

## Lasting Beauty

### Well-built, Uniform Exterior Aesthetics

The 6" Wall Vent is designed to work in concert with the very popular Dryer Wall Vent. It also has clean, low-profile lines which help to enhance exterior beauty as well as a 26 gauge Galvanized **and** powder coated steel body to stand the test of time.

### Airflow Efficiency

The lightweight damper and clean opening maximize airflow efficiency. While not designed for the demanding needs of residential dryers, this easy opening damper can support all other exhaust systems.

### Ease of Installation

Choose this vent for a quick, perfect fit in both retrofit and new construction 6" duct systems.

# 6" Wall Vent

## Technical Product Specifications

Model Number	Color
DWV6W	White
DWV6T	Tan
DWV6B	Brown

### Performance Data

#### Product Use:

- Venting Exhaust Systems Through Exterior Walls
- Note: For residential clothes dryers, most building code requires that the actual duct run be 4" diameter (or in some instances 5"). An increaser can be employed at the exhaust exit to use this product.

#### Materials:

- 26 Gauge Galvanized Steel Housing
- 30 Gauge Galvanized Steel Damper
- Polyester TGIC Weather Resistant Powder Coating

### General Information

#### Benefits:

- Improves Aesthetics with Flush Installation
- Installs Easily in New and Existing Construction
- Stands the Test of Time with Durable Materials
- Simplifies Duct Cleaning with Easy Accessibility
- Maximizes Airflow Efficiency
- Maintains consistent look when used in concert with the Dryer Wall Vent.

#### Features:

- Galvanized & Powder Coated Steel Construction
- Lightweight Damper and Heavier Frame
- Damper Opens Freely to 130°
- Four Built-in Mounting Holes

### Manufactured By

#### In-O-Vate Technologies, Inc.
