HVAC Equipment Hangers

HUNG-RITE

Features

- Hanger comes fully assembled and ready for installation.
- Uses padding to reduce vibration, for quieter equipment operation.
- Cable locks allow easy levelling of your equipment.
- Hanger is collapsible, and easy to take anywhere!
- HVAC contractor designed.
- Has separate holes drilled for threaded-rod installations.
- Supports up to a 5 ton air handler or furnace & coil weighing up to 400 lbs.

The Hanger

Our hanger utilizes cable locks for quick levelling, and is equipped with a 3^{1/2} in. bolt for suspension in a variety of places. Hung-Rite's Hanger gives proper support to eliminate equipment buckling and leaves equipment unobstructed for future maintenance. Pre-drilled holes are located on the arms, for threaded rod during your commercial installations. All of which is available fully assembled in a slender packaging, and ready for your use!

Have a clean and professional installation with Hung-Rite

The use of cable & cable locks allow for the bolt to be set in a variety of places with a maximum cable angle of 45°

For commercial installations, use threaded rod for added support!
