

4501 VAK-CHECK™

The VAK-CHECK is a precision thermistor vacuum gauge designed especially for refrigeration and air-conditioning service. It will automatically compensate for changes in ambient temperature and permit continuous monitoring during evacuation. This instrument is compact, lightweight, easy to use, and reads directly in microns on a large, easy-to read meter.

- Atmosphere to 10 microns
- Ambient temperature compensated
- Accuracy: 200-1000 microns \pm 5%
- Comes complete with Model 4510 Sensor
- Battery powered; no searching for outlets. Uses 2 "D" cell batteries (not included)
