

# Nu-Solve NR Sprayer

# NEW

## COIL CLEANING BACKPACK SPRAYER

### A HIGH QUALITY SPRAYER FOR APPLYING NU-SOLVE NR; A NON-RINSE CONDENSER COIL CLEANER

- ▶ For use with Nu-Solve NR (4295-08) when water for rinsing is an issue
- ▶ Durable, ergonomically designed backpack sprayer with big mouth cap for easy filling
- ▶ High pressure spray (up to 150 psig) for added effectiveness with Nu-Solve NR
- ▶ Internal pump. No holes or connections in bottom of tank to leak!
- ▶ Large pressure chamber for long lasting pressure between pump strokes
- ▶ Four gallon capacity with graduated marks
- ▶ Flexible, rugged wand
- ▶ Adjustable nozzle for desired spray pattern

The Nu-Solve NR Sprayer is designed solely for use with Nu-Calgon's Nu-Solve NR (4295-08); an non-rinse outdoor coil cleaner when water for rinsing is an issue. A few applications for Nu-Solve NR include cell tower cooling coils, multistory building where outdoor water is not nearby, cleaning a residential outdoor coil when the outside facet is turned off, and/or when a contractor prefers to have a small chemical footprint on the roof when cleaning commercial systems.

**IMPORTANT:** Nu-Solve NR is the only approved coil cleaner to be used with the Nu-Solve NR Sprayer. Not for use with other Nu-Calgon coil cleaners or competing cleaners. Nu-Solve NR can also be applied with a conventional tank sprayer.
