and
protects
VindEX
treated
coils
from
mold,
bacteria
and
corrosion

VindEX Clean concentrated coil cleaner safely and gently cleans your system's evaporator coil, leaving a residue-free surface perfectly primed for the application of **VindEX** polymeric coil sealants.

VindEX Clean delivers excellent cleaning results as well as the neutral PH factor and anti-corrosive properties recommended by major HVAC equipment manufacturers. After application of **VindEX** coil sealant, we recommend regular coil cleaning with **VindEX Clean** to gently remove contaminants and maintain sealant effectiveness.

Available to the trade your local parts supply house. For MSDS and application instructions:
