

TEMPSTAR® RESIDENTIAL HEATING & COOLING PRODUCTS

TEMPSTAR®
Heating and Cooling Products

PRODUCT AT-A-GLANCE FOLDOUT

No Hassle Replacement™ limited warranty:

Your huge competitive advantage

When you're talking to a homeowner about a new heating and cooling system, you have a huge advantage over most competitors—the Tempstar® No Hassle Replacement™ limited warranty. Make the most of every sales opportunity by making sure you understand this important warranty and how to use it to get the sale. Here are the basics:

How does it work?

The No Hassle Replacement limited warranty offers a one-time new equivalent replacement unit should the compressor, covered outdoor coil or heat exchanger fail due to defect during the No Hassle Replacement period. The No Hassle Replacement limited warranty applies to SmartComfort products and varies in length of limited coverage—up to 10 years to the original purchaser.

What does that mean to your customers?

Simply this: If a covered major component fails during the No Hassle Replacement limited warranty period, the customer has the option to:

1. Replace the unit.
2. Repair the unit.

It's a powerful selling tool that offers homeowners peace of mind. Use this superior warranty to build value in the products you sell. Mention it on every sales call.

How do you use it to close the sale?

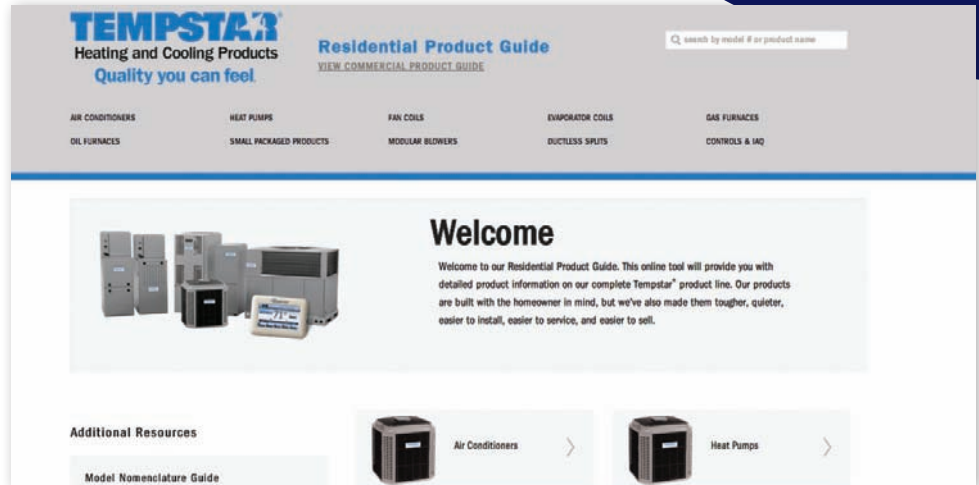

Follow these three steps:

1. **Advertise it.** Include the No Hassle Replacement limited warranty in all of your ads, on your website, and in every marketing tool you use. Check the "Business Building Tools" section of the Dealer Resource Center at www.GoTempstar.com to find ads that mention the warranty and graphics to help you promote it.
2. **Mention it.** Tell EVERY customer about the No Hassle Replacement limited warranty and explain how it works.
3. **Offer it.** Always offer at least one product covered by the No Hassle Replacement limited warranty. There are plenty of covered products available. All Tempstar SmartComfort products include a No Hassle Replacement limited warranty.

Read the warranty certificate for details. Make sure you understand this important warranty before your next sales call. This warranty offers extra coverage in addition to the standard product limited warranty. Restrictions apply. See the most current and complete warranty certificate for further details.

COMPREHENSIVE ONLINE PRODUCT GUIDES!

With these online Product Guides, it's easy to access detailed information about the complete line of Tempstar® products via the Internet on your laptop, tablet or smartphone. Plus, if you need a hard copy of the product catalog, you can always download a pdf version and print it yourself.

Access Instructions:

- Go to www.GoTempstar.com.
- Click on "Product Information" at the top of the screen.
- Scroll down to "Residential Product Guide" or "Commercial Product Guide" and you're there.

Or... Scan this QR code with your smartphone.

These online Product Guides include:

Photos and Specifications for the complete product line, including air conditioners, heat pumps, oil furnaces, small packaged products, fan coils, modular blowers, evaporator coils, ductless splits, gas furnaces, controls and IAQ (indoor air quality) products. Just click on a product category to view all of the models within that category.

Comprehensive Details.

Then, you can click on a specific model to view more comprehensive details, including:

- Product features
- Efficiency ratings
- Capacities
- Warranty information
- Unit performance data
- Accessories
- Certifications

CHECK IT OUT!

See the online Product Guides as soon as you get a chance. These online product databases have an easy-to-use interface with the most up-to-date information on all the Tempstar residential and commercial products and accessories. Plus, the Guides are simple to access via the Internet and your laptop, tablet or smartphone when you are on the go.

It's Easier to Find Split-System Matches... with Our Online Database!

The process of matching split systems can be time-consuming and lead to information overload. Now you can search for Tempstar® equipment **using our online database for split system air conditioning and heat pump combination ratings.**

How to find it: Look on www.GoTempstar.com under Product Information.

It's Easy to Use!

Specific to Tempstar systems, the database incorporates these **user-friendly features:**

- Drop-down lists showing all model numbers, so there's no need to type in part of a model number
- Option to specify indoor (coil) model, or search all indoor models
- Option to specify furnace model, or search all furnaces
- Option to search with a minimum SEER
- Export an **unlimited** number results to an Excel file for even easier sorting and comparing
- Retained history from February 2013 going forward, i.e. combinations that are "archived" in the AHRI database stay visible
- AHRI reference numbers are included for every combination

The database pulls data directly from AHRI but simplifies the user interface and makes it easier to find what you're looking for. When a given model is no longer in production, the combinations are still retained in the database. If you have New Old Stock—new (unused) equipment that's been in inventory so long that AHRI has dropped the combination—this new database makes it easy to find.

Best of all, using the database allows you to make the results as broad or as narrow as you wish and makes it easy to drill-down on the specific equipment you're looking for without wading through every brand in the industry.

*For information regarding furnace or fan coil options that can increase the energy efficiency of selected Tempstar air conditioners (SEER and EER) and heat pumps (SEER, EER and HSPF), refer to www.GoTempstar.com/Product Information/Higher SEER and HSPF

** Maximum Strength Warranties include: - Tempstar® gas and oil furnaces, and R-410A based air conditioners, heat pumps, coils, and small packaged products carry a ten (10) year limited warranty on parts (including compressor and coil) to original owner when installed in a residential heat exchanger warranty to original owner (registration is not required for 10 year or 15 year limited heat exchanger warranty). Limited warranty period is 5 years for parts and twenty (20) years for heat exchanger to original owner if not registered within 90 days of installation. Original owner or new equivalent replacement unit to the original owner should the compressor, covered coil or heat exchanger fail due to defect during the No Hassle Replacement period. Split system units must be matched with an approved indoor coil or fan coil with TXV or piston metering device. Write

DUCTLESS SYSTEMS

A High Wall Single Zone System Heat Pump with Basepan Heater

- Variable Speed (Inverter) Compressor
- Up to 30.5 SEER
- 10.3 HSPF
- Sizes: 09 to 18
- 3 systems are ENERGY STAR® certified
- Operating ranges:
 - Cooling 0° ~ 129° F (-18° ~ 54° C)
 - Heating -22° ~ 75° F (-30° ~ 24° C)

Limited Warranty:**
- Parts & compressor
- 10 yrs.

B Multi-Zone System Heat Pump with Basepan Heater

- Variable Speed (Inverter) Compressor
- Up to 22.0 SEER
- Up to 10.2 HSPF
- Sizes: 18 to 56
- Connect 2 ~ 9 indoor units
- Operating ranges:
 - Cooling 0° ~ 118° F (-18° ~ 48° C)
 - Heating 5° ~ 75° F (-15° ~ 24° C)

C High Wall Single Zone System Cooling Only, Heat Pump with Basepan Heater

- Variable Speed (Inverter) Compressor
- Up to 23.0 SEER
- Up to 10.0 HSPF
- Sizes: 09 to 36
- 12 systems are ENERGY STAR® certified
- Operating ranges:
 - Cooling 0° ~ 115° F (-18° ~ 46° C)
 - Heating 0° ~ 75° F (-18° ~ 24° C)

D High Wall Single Zone System Cooling Only, Heat Pump with Basepan Heater

- Variable Speed (Inverter) Compressor
- 16.0 SEER
- Up to 9.0 HSPF
- Sizes: 09 to 24
- Operating ranges:
 - Cooling 0° ~ 115° F (-18° ~ 46° C)
 - Heating 0° ~ 75° F (-18° ~ 24° C)
